

Ben David

ASSEMBLY INSTRUCTIONS

1. Carefully unpack both parts, removing all packaging, and place the Lamp Base (2) on a level surface.
2. Install a suitable bulb into the socket of the base (2).
3. Carefully place the glass sculpture (1) over the base.
4. Ensure the shade is properly seated and stable before use, then plug in and switch on.

BULB DETAILS:

Max lamp rating: 1 x 40 Watt

E27 standard 27mm Edison Screw (ES) base.

With the mushroom shade, use a 7-9 Watt E27 LED bulb only. Do not use incandescent bulbs.

Rated: 220-240V ~ 50Hz

(BULB NOT INCLUDED)

CARE INSTRUCTION:

Always switch off at the power point and let the globe cool before handling or cleaning. Keep dust-free: wipe the glass gently with a soft, dry or slightly damp cloth. Do not use harsh chemicals, abrasive sponges or glass sprays, as they can dull the glossy finish. Never soak or submerge in water. Only replace bulbs with correct type, rating and size. Do not insert any object into lamp holder during cleaning.

NOTE:

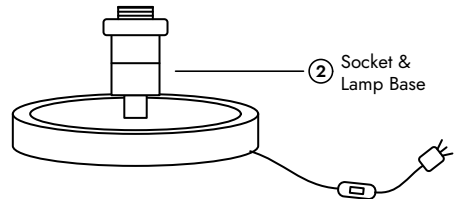

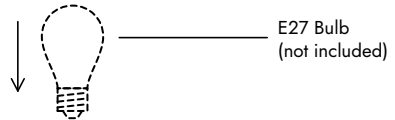

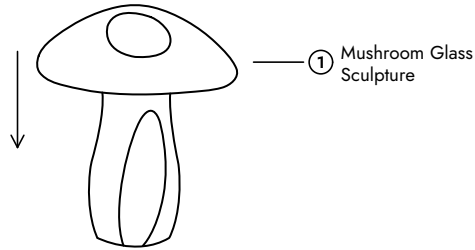

- For your safety, the cord, plug and switch are sealed and can't be replaced. If any part is ever damaged, switch off at the power point and stop using the lamp straight away.
- Do not use the lamp if the glass shade is loose, unstable, cracked, chipped, or damaged.
- Do not lift, carry or move the lamp by holding the glass shade. Always hold the lamp by its base.
- Place the lamp on a stable, level surface away from table edges, children and pets.
- Do not place objects on top of the glass shade or use it to support anything.
- This product is for indoor use only. Keep away from bathrooms, damp areas and direct splashes, and ensure there are no flammable materials nearby.
